

Position: Flat Roof Installer

Responsibilities:

1. **Roof Installation:** Installing flat or low-slope roofing systems using various materials such as built-up roofing (BUR), single-ply membrane roofing (e.g. TPO or EPDM), modified bitumen roofing, and metal roofing. This includes the preparation of the roof deck, the application of insulation, and the installation of the roofing material.
2. **Inspection & Assessment:** Conducting roof inspections to assess the condition of the existing roofing system and identify any issues that require repair or replacement.
3. **Roof Repair:** Identifying and repairing leaks, damaged areas, and other issues in flat roofs. This may involve patching, sealing, or replacing damaged roofing materials.
4. **Waterproofing:** Ensuring that the roofing system is properly waterproofed to prevent water infiltration. This includes installing flashing, sealants, and other waterproofing components.
5. **Maintenance:** Performing routine maintenance to extend the lifespan of the roofing system. This may involve cleaning the roof, inspecting for damage, and making necessary repairs.
6. **Safety:** Complying with safety regulations and best practices to ensure a safe work environment. This includes using appropriate safety equipment and ensuring the safety of the crew and occupants of the building.
7. **Quality Control:** Ensuring that roofing work meets industry standards and specifications. This includes proper alignment, fastening, and sealing of roofing materials.
8. **Documentation:** Maintaining records of work performed, including project details, material usage, and any other issues or challenges encountered during the installation or repair process.
9. **Customer Interaction:** Communicating with clients or building owners to explain the scope of work, address questions or concerns, and provide updates on the progress of roofing projects.
10. **Continuing Education:** Staying up to date with the latest roofing technologies, materials, and installation techniques through training and education.
11. **Teamwork:** Collaborating with a team of other roofing professionals such as roofers, laborers, and contractors, to complete roofing projects efficiently.
12. **Environmental Considerations:** Adhering to environmental regulations and best practices when handling roofing materials and waste disposal.
